| Release Month: | September 2018                       |
| Alcohol:       | 14.5%                                |

### Hannah's Vineyard

Hannah's vineyard is in the western foothills of the Sierra Nevada mountains in the Shenandoah Valley area (about 40 miles east of Sacramento). Hot, sunny days are followed by cool evenings that allow the grapes time to close down the ripening process overnight, retaining the acidity required to create an award-winning Barbera.

### Winemaking Notes

The fruit was harvested in mid September 2016 at 25.5 brix and underwent 3 days of cold soak prior to fermentation. The wine was stored in a mix of French, American and neutral oak barrels for a period of 16 months before bottling on February 2018.

### Tasting Notes

Jazz Cellars' 2016 Barbera is delicious with nice fruit and smooth mouth feel. One of the most popular wines in our Murphys Tasting Room!

This is a versatile wine that pairs well with many foods including pasta with meat, stews, chili, burgers, pizza, dark meats, mushrooms, hard cheeses and vegetables. It is also very enjoyable on its own to enjoy with crackers and cheese or just a good conversation with friends.
